

Module

```
graph BT; CpuFreq[mammut::cpufreq::CpuFreq] --> Module[Module];
```

A diagram illustrating a module hierarchy. At the top is a rectangular box labeled "Module". Below it is another rectangular box labeled "mammut::cpufreq::CpuFreq". A vertical arrow points from the top of the "mammut::cpufreq::CpuFreq" box to the bottom of the "Module" box, indicating that "mammut::cpufreq::CpuFreq" inherits from or is a specialization of "Module".

mammut::cpufreq::CpuFreq
